Xiaolong Wei

Department of Earth & Atmospheric Sciences, University of Houston
Room 126, Science & Research Building 1, 3507 Cullen Blvd, Houston, Texas, USA
Email: xiaolongw1223@gmail.com | ORCID: 0000-0002-3160-6086
Website: researchgate.net/profile/Xiaolong_Wei

Education

2018–Present	**Ph.D in Geophysics**, University of Houston, Houston, USA
2015–2018	**M.S. in Geology**, Northwest University, Xi'an, China
2011–2015	**B.S. in Geophysics**, China University of Geosciences, Beijing, China

Research Interests

- Geophysical inverse problems for multiple data sets (e.g., gravity, gravity gradiometry and magnetic)
- Structural similarity constraint joint inversion
- Uncertainty analysis in geophysical separate/joint inversions in both deterministic and stochastic frameworks
- Geology differentiation models
- Machine/deep learning algorithms applied to geophysical data interpretations

Awards & Honors

2021	SEG Technical Program Registration Grant
2021	John R. Butler Jr. Scholarship from SEG
2021	The Best Poster in the Mining Sessions at the 2020 SEG Annual Meeting
2020–2021	Outstanding Academic Achievement, University of Houston, Houston, USA ($\times$2)
2016–2018	The First Prize Scholarship, Northwest University, Xi'an, China ($\times$3)
2015	The Best Bachelor Thesis, China University of Geosciences, Beijing, China
2013	The Second Prize Scholarship, China University of Geosciences, Beijing, China
2012	Outstanding Volunteer for rural elementary schools, China University of Geosciences, Beijing, China

Publications

Peer-reviewed

4. Hu, Y., **Wei, X.**, Wu, X., Sun, J., Chen, J., Huang, Y., Chen, J., 2021. A deep learning enhanced framework for multi-physics joint inversion. *Geophysics*. under review

3. **Wei, X.** and Sun, J., 2021. Uncertainty analysis of 3D potential-field deterministic inversion using mixed L p norms. *Geophysics*, 86(6), pp.1-103.

2. Sun, J., **Wei, X.**, 2020. Recovering sparse models in 3D potential-field inversion without bound dependence or staircasing problems using a mixed Lp-norm regularization. *Geophysical Prospecting*. doi:10.1111/1365-2478.13063.

1. Sun, J., Melo, A., Kim, J.D. and **Wei, X.**, 2020. Unveiling the 3D undercover structure of a Precambrian intrusive complex by integrating airborne magnetic and gravity gradient data into 3D quasi-geology model building. *Interpretation*, 8(4), pp.1-50. doi:10.1190/INT-2019-0273.1.

Reviewers

2021–present	Acta Geophysica
2021–present	IEEE Transactions on Geoscience and Remote Sensing

Professional Affiliations & Activities

08/2021	Participant of 2021 ISInProG@Lario - 2021 International School on Inverse Problems in Geophysics on the shore of the Lario Lake
2020–	Contributor of joint inversion code in SimPEG (https://simpeg.xyz/)
2020–Present	American Geophysical Union (AGU)
2020–Present	European Association of Geoscientists & Engineers (EAGE)
2018–Present	Society of Exploration Geophysicists (SEG)

Teaching Experiences

2020	GEOL7330: Potential Field Methods of Geophysical Exploration (graduate core course), **guest lecturer**, University of Houston
2019	GEOL4355: Geophysical Field Camp, **teaching assistant**, University of Houston

Invited Talks

09/2021	**Wei, X.** and Sun, J., From deterministic to probabilistic geoscience modeling: analyzing uncertainties of geophysical inversions and constructing probabilistic subsurface models conditioned on petrophysical measurements, SimPEG monthly seminar.

Certifications

2021 Magnetotellurics (MT) short course given by Dr. Alan G. Jones.

2018 Certificate signed by Prof. Andrew Ng upon successfully completing the online machine learning course provided by Stanford University through Coursera Inc.
